

I want to call your attention to Sinclair Broadcasting's decision to require their stations to broadcast an anti-Kerry documentary days before the election.

It's a case of a large corporation dominating the airwaves. Where is the contrasting information given the same amount of time for a pro-Kerry broadcast?

This type of action shows why we need to strengthen media ownership rules, not weaken them. Sinclair's license renewal should be questioned. I hope you will take action to make radio broadcasting serve the public interest.

Thank you.
